## IN RAILWAY CIRCLES

General Dodge's Mission to the Pacific Coast.

RICH FINDS IN COLORADO CANYON.

How Rock Island Stock Advanced \$1 per Share-The Utah Central in Park City-Personal and General.

General Bodge, of the Rio Grande Western, s now in San Francisco, and it is rumored that he has been closeted with high officers of the Southern Pacific for several days. The result of his visit will probably be an arrangement for reciprocal through train service over the broad guage roads leading from the shores of the reat lakes to the sands of the Pacific. It is a well known fact that once the Rio Grande West-ern's broad-guage is completed, there will be no more transferring at Ogden of gers and freight destined for Salt and it has been further stated Lake, and it has been further stated that in the very hear future the Central Pacific trains would be run clear through to Grand Junction, and the transfer now made at Ogden would take place there instead. What more natural to suppose than that some arrangement will be made whereby one will be enabled to make the entire trip from the Pacific ocean to the great lakes, or even to the Atlantic ocean, without change of care.

Cars.

The Union Pacific's alliance with the North-western gives such a service as far as Portland, isn't the Little Giant liable to go the old road once better, and say to passengers in Chicago:

We guarantee you no change of cars until the sands of the Pacific are reached? o know the managers of the Western

## Rich Ore in the Canvon.

THE HERALD'S Kanab correspondent write The Heilald's Ranab correspondent writes stollows concerning the alleged discovery of cold made in the Grand Cañon of the Colorado: You have previously published the fact that a tions are that the fair will be an unbound Mr. McDouald left Chief Engineer Stanton's surveying party, after making the trip through surveying party, after making the trip through the Grand Cafion of the Colorado, locating the route for the Denver & Colorado Cafion railway. You alleged that Mr. McDonald left for the purpose of returning to the cafion and locating mining claims. This appears to be correct. Mr. McDonald, C. A. Huntington, Niels Johnson and Affred Peterson have just been in here for supplies, and brought with them fine specimens of ore, some of which will pay to carry out of the cafion on donkeys and ship either to Misford or Neighl at a total expense of 7 cents per pound and then leave a surplus of about three hundred dollars on such ton. There are many veins discovered, and many kinds of metal. Mr. McDonald said that immense from mines are there. He thinks it superior to anything in the world."

## It Sent Up the Stock.

A story that the Rock Island company had gained control of the Rio Grande Western, thereby obtaining a through line from Chicago thereby obtaining a through line from Chicago to Salt Lake city, served to advance the stock fill a share. The report was doubted in well informed quarters although the value of the reported acquisition was everywhere recognized. The Rock Island is deficient in feedors, and nurthermore, there is very little new territory it can build into without clashing with other interests. The future of the Rock Island consists in getting a strong position in Colorado, which will be the Pennsylvania of the west some day. The state is rich in minerals, including conland iron ore, and the frentier west will draw its supplies of 1 on from that section very shortly. The possession of the line referred to would place the Rock Island near chough to the Pacific coast to enable it to entertain the idea of becoming an actual transcontinental line some day, and in the meantime of making conjunctions that will enable it to reach San Franscontinents with the second consideration of the line of the san Franscontinents and in the meantime of making conjunctions that will enable it to reach San Franscontinents.

## Personal and General.

The work of grading the grounds for the new Northern Pacific yards at Spokane Falls com-nered on Saturday. The company proposes to make improvements and put up a freight fouse. The varils will be the finest on the road and will cost \$200,000 to \$30,000.

and will cost \$200,000 to \$200,000.

The official directory of the New York Central shows that of the 206 station agents on the read twenty-six are women, but none are employed the Hudson river or Harlem divisions. The road operates \$93.47 miles of line. It is equipping all its freight cars, which are thirty feet in length or over which are practically all the cars of any service, with air braises. The company is also building 10,000 new freight cars and will south them as all others to be belief. ad will equip them as all others to be built ith the air-brake.

One of the most interesting things to be seen in a daylight ride over the Pennsylvania road from Pittsburg to Philadelphia is the almost complete restoration of the track to the condition which existed before the great flood last summer. Generally speaking, no one but a person who has been very familiar with the tracks before the flood could notice any change. There are still two or three bridges unfinished, notably the stone arch bridge near Conomaugh; and in the immediate vicinity of Conemangh and Johnstown the roadbed still shows traces of the terrible ravagres of the flood. On the eastern side of the mountains, however, all these marks have practically disappeared. \*\*Allread Gazette\*\*
The Union Pacific people have placed an order troughs and the Janey vertical coupler. Contractors will commence delivering the cars to the Union Pacific road in a -hort time, as well as large hamber of new fruit cars recently contrasted for.

Fully 75 per cent. of the freight engines now waster of the contractors will commence delivering the cars to the condition of the treight engines now and the properties of the flood of the cars to the Union Pacific road in a -hort time, as well as large hamber of new fruit cars recently contrasted for.

Fully 75 per cent, of the freight engines now under contract to be built are of the consolida-tion type, and 25 per cent, of the passenger en-gines are of the large ten, wheel type. The Utah Central now runs regular trains to Park City. The time table will be found in an

other column.
The trains were a little 'tregular yesterday.
Rio Grande Western—No. 3, due at 7:40 a.m.,
was one hour and ten minutes late; No. 2, due
at 10:20 a.m., was twenty minutes late: No. 4,
due at 6:25 p.m., was three hours behind, No. 4,
due at 7:76 p.m., reached here on time. Union
Pacific—Park City, on time; 7:01, due at 12:10,
was two hours and twenty minutes behind:
7:07, due at 7, was thirty minutes late.

HE THOUGHT THEY MEANT HIM.

## The Adventure of "Cash" Cologne in New York Store.

Cassius or "Cash" Colgene, as he is usually named, a well known resident of Fauquier county, Va., recently paid his first visit to New York. Wishing, unlike so many men, to show his thought for his wife when out of her sight, he entered a leading dry goods store for the purpose of buying a dress pattern or ome such suitable article. Walking up one of the aisles he was more than surprised to hear some one in the dim distance loudly yell out "Cash!"

Naturally surprised he looked in the direction whence the voice came, supposing its owner to be a friend or ac quaintance, and that Gotham's prover bial looseness of habit permitted this manner of salute. Still he could see no one that he recognized. Wondering more and more, astonishment grew to the boiling over point, when, as if by a preconcerted signal, from all quarters of the room came persistent cries of "Cash! Cash! Cash!" This was more than Virginia chivalry, in the person of Mr. Cologne, could bear, and, as at that moment a clerk with a locomotive whistle voice standing right back of him clapped the climax by shouting the name s very ear, he turned round and remarked:

"Look here, young fellow, you folks may think you're having a lot of fun with me, but if you use my name that way again I'll break your neck."

It took the proprietor and six floor walkers half an hour to convince him as to the facts of the case and that no harm was meant. Meanwhile he carried on in such a way that half the salesmen went out and got big accident insurance policies good until the Virginia gentleman was booked to leave town.-Philadelphia

SALT LAKE DAILY HERALD. OGDEN CITY, UTAH.

## OGDEN DEPARTMENT.

The branch office of THE HERALD is in Reed & Burgitts' iron building on Washington avenue, adjoining Boyle & Co.'s furniture store. Advertising rates will be made known upon applica

THE DAILY HERALD is for sale at all news stands and by all news boys, and is delivered by carrier in Ogden for 25 cents per week. No papers stopped until arrears are paid. Subscribers failing to receive papers promptly will confer a favor by notifying the circulator at the branch office. Subscribers are requested to make no payments to carriers or anyone else except the circulator. Parties desiring papers stopped or addresses changed must notify the branch office. E. A. Leptleretto, Manager. J. C. BOYLE, Circulator,

## The City in Brief. Soda water is now ripe.

Soda water is now ripe.

Crowds of May walkers will go out in the hills today if the weather be propitious.

The machinery for the tile and sewer pipe, which is to be manufactured by the Ogden Clay company, is on the way here.

The Descret and Bish Kane's base ball teams will play a game on Lester park to-morrow afternoon, commencing at 2:30 o'clock.

The demand for tenement houses continues, where to put the families who are continued, where to put the families who are continuely arriving here is becoming a serious question.

The brass band was out last evening drum ming up a crowd for the carnival meeting that was held in the city hall. The crowd was large and enthusiastic.

The plans for the Stayner four-story building on Washington avenue are being prepared and work upon the structure will be commenced of the first day of July.

J. S. Lewis & Co. will erect an elegant five story building on the corner of Twonty-fifth street and Grant avenue this year. The loca-tion is one of the best in the city.

One peace disturber and two drunks were tried in the municipal court yesterday. The former was fined \$11.50 and the two bacchen-alians went to jail for ten days each.

Browning Brothers and Eccles & Clark, who are among the wealthlest and most enterpris-ing of Ogden's citizens, will creet an opera-house on the east side of Washington avenue, between Twenty-fifth and Twenty-sixth streets. The three ringinaters in the gang of prisoners that struck for better grub and shorter hours last Monday, were not allowed to go to work Toesday, so they concluded to skip out. Tuesday, so they concluded to skip out. Tuesday night they pried the door of the cell in which they were confined off its hinges and made their escape.

escape.

In the probate court, in the matter of the estate of Amos P. Stone, deceased; bond of administrator filed and approved; order appointing Alfred Folker, Weils Chase and George S. Barker appraisers, and order of notice of publi-

It will probably be known in a day or it whether the city will be able to sell a portion Union square to the chamber of commerce. A guments in the restraining sait have been hea and the matter taken under advisement Judge, Henderson.

Judge, Henderson.

The New West nine have accepted the challenge of the Oxden Military academy cadets to play a game of baseball on May 10. The former nine agree to play without the aid of any of the old members of the Athletics or Descrets. In the two former games played by the two clubs, the O. M. A.'s got badly left. There may not be such a difference the next time.

It is the height of folly to make any attempt to pass the Oxden borrowing bill over Harrison's veto. The plan adopted by the council for previding severage for the city is all right. It will not work a hardship on any property owner. Any one who is able to own property on any of the streets included in the sewer districts, is well able to pay the attendant expenses.

The usual daily runaway took place about

well able to pay the attendant expenses.

The usual daily runaway took place about 2:30 p. m. yesterday. A span of horses attached to a wagon loaded with lumber took fright at the street motor, and started from the Co-opcorner for a run south on Washington avenue. The team came tearing along the street, the driver holding on to the reins and shouting to people to clear the track. In front of the Ogden Paint and Oil company's store the wagon collided with a buggy overturning and breaking it and throwing out its occupant, who fortunately, was not injured. The driver of the team held on and brought them to a standstill at Twenty-second street. The only damage was the breaking of the buggy.
